

CELSI

...the future of fire

CELSI CURVED with blazing log flame picture

WELCOME TO CELSI

At Celsi we know how important it is to create a stylish and relaxing living environment. That's why we've developed this collection of premium electric fires.

I believe our success stems from a combination of innovative design, investment in technology and the highest quality manufacturing standards. As a result all Celsi heaters carry a 5 year limited warranty to reflect my belief in their quality and durability.

This brochure has been designed to make the purchase of your new Celsi heater as simple as possible. I hope you find it both informative and inspiring.

Michael Roper

CELSI IS THE FUTURE OF FIRE

Combining style with innovation, the Celsi range of electric fires is the ultimate in high technology, and gives you the most convincing real fire effect available today.

A Celsi electric heater is extremely versatile and creates a breathtaking feature virtually anywhere in your home, from your lounge to your bedroom. Celsi is also the only electric fire to give you the astonishing look and sound of a real fire, combined with exceptional functionality. At the touch of a button you can control your room temperature, flame picture, flame speed, volume and brightness.

Celsi is not just a fireplace. It's an experience.

FLAME PICTURES

Celsi has patented some of the most advanced technologies to create the most sophisticated and realistic fire effect in the world. Every Celsi fire has been designed to give the appearance of outstanding depth along with an amazing 3D effect, and comes with a selection of real fire effects to choose from.

SMOLDERING LOG

BLAZING LOG

FLAMING COAL

FLAME SPEED

You may prefer a slow and calming flame or a quick and spellbinding flicker. With a choice of 5 flame speeds you can speed up or slow down each of the real fire movies.

FIRE VOLUME

There's nothing more soothing than the authentic crackle of a real log fire. Lower the volume for a more subtle result or crank it up for full effect. There is also a mute button to silence the sound effect when you need to. When on 'flame only' setting, Celsi is the quietest fire on the market.

MOOD LIGHTING

The mood lighting feature creates a calming ambience around the heater. A choice of 3 colors: white, amber and blue, lets you highlight the fire to suit your mood. This is available on both the Curved and Panoramic models and can be turned off if not required.

WHITE

BLUE

AMBER

OFF

PICTURE BRIGHTNESS

Natural daylight or artificial lamplight can have a big impact on how you see the flame picture. We have included this brightness function to allow you the option to increase or dim the screen brightness to suit you and your environment.

SLEEP TIMER

An extremely practical function. The sleep timer can be used to automatically turn the heater to standby mode after a predetermined amount of time. Great if you want to doze off and not worry about turning the fire off once you have fallen asleep. The timer can be set for up to a maximum of 4 hours in 30 minute intervals and once this time has elapsed the appliance will automatically go into standby.

TEMPERATURE

The fan heater can be operated in manual or automatic mode. When in manual mode you can use the heat button on the remote handset to select low heat, high heat or heat off.

To eliminate the hassle of constantly manually adjusting the heat output, every Celsi fire features a state-of-the-art, digitally controlled thermostat. Use the temperature function to turn on automatic heat mode. You can pre-select your comfort level and the heater will automatically adjust between high heat and off, maintaining the room temperature you have selected.

FUNCTIONALITY AT YOUR FINGERTIPS
