# Introduction

- Design details is a collection of design technic possibilities to assist you in achieving a high level of fit and finish with your project.
- As the title “design details” implies, this is a starting point to exploring the rich range of design installation details you, and your designer can create to reinforce your overall décor intent.
- Each page in this guide illustrates a design technic, derived from an analysis of projects completed by our professional customers, including carpenters, architects, interior designers and woodworkers.
- Consult a designer or New England Classic for assistance on detailing your individual application.
  - A more extensive collection of details are available to view online or download from [www.newenglandclassic.com](http://www.newenglandclassic.com)
  - Details are also presented in our installation guide, which ships with each order

To view actual installations, and find details, visit [www.newenglandclassic.com](http://www.newenglandclassic.com)

Casing with Back Band

Flat Casing
