

RESIDENTIAL & COMMERCIAL PORTFOLIO

Before

New England Classic®

New England Classic® manufactures architectural wainscot and panel systems using innovative materials, design and construction to revive the warmth and prestige of fine wood interiors.

Although the high degree of skilled labor required by custom millwork has made beautifully paneled interiors impractical for many projects, the New England Classic® system is affordable and attainable.

The New England Classic® System

This unique modular system delivers the convenience of integrated components while maintaining the flexibility to enhance any design statement. The endless configuration options of standard elements may be combined with custom pieces to further define a signature look.

Design Styles

New England Classic® systems are available in six design styles to complement noteworthy architectural periods of the past four hundred years:

Classic *Traditional*®

Classic **Beadboard**®

Classic **American**®

Classic **Modern**®

Classic **COTTAGE**™

Classic **Rustic**™

features and benefits

Features and Benefits

- Modular Kit of Parts reduces design time
- Environmentally responsible, GreenSpec listed
- Moisture resistant shoe molding
- Class 1 fire rated for optional upcharge
- Comprehensive design support
- Reliable delivery
- Components packaged to minimize damage prior to installation
- Consistent material and finish quality
- Efficient and predictable installation with minimal on-site customizing
- Durable: impact resistance comparable to red oak
- Performance superior to solid wood
- A fraction of the cost of custom millwork

Classic Traditional® features raised panels and enhances Colonial Revival, Greek Revival, Queen Anne, Neoclassical, Georgian, Adam, Victorian, and Shingle style interiors.

Classic Traditional®

Classic American® with its flat, recessed panel style celebrates the distinctly American look defined by Frank Lloyd Wright and Green & Greene, including: Arts and Crafts, Mission, Shaker, Craftsman and Prairie.

Classic American®

Classic Modern® features flat panels that capture the rich wood grain detail, while precision machined panel edges achieve a shadow reveal between rail, stile and panel. Inspired by the work of Louis Kahn and Alvar Alto this dynamic system belongs in a Modern or Contemporary setting.

Classic Modern®

Classic Beadboard® provides an authentic rounded double bead design that is a superior alternative in appearance and performance to existing shallow and 'kerf' beaded style products. It complements Victorian, Cottage, Country, Shingle and Folk Victorian styles.

Classic Beadboard®

A Modular System Design with Custom Flexibility and Accessories

- A wide variety of panel styles, widths, and heights with matching stile lengths.
- Panels may be used horizontally or vertically
- Plate Shelf
- Custom Panel Sizes and Radius Shapes available
- Crown Molding
- Flat or Beaded rails
- Casing

Product Specifications

To download product specifications, CAD files and typical details, please visit our Website at www.NewEnglandClassic.com. Our site functions as a working design tool, including samples of standard veneer species and finishes and an image library of installations.

Comprehensive Design Support

New England Classic® provides complimentary design consultation, budget estimates, and full design services. Project-specific CAD drawings and materials lists are provided at no additional charge once New England Classic® has been specified. [To contact us please call 888-460-6324.](tel:888-460-6324)

Classic Cottage™

Classic Cottage™:

Classic Cottage™ is a refined casual style, available in chair rail heights of 48" and 56". Inspired by the 'utilitarian' architecture of late 19th and early 20th century.

transform the look and character of your home

Classic Rustic™

Classic Rustic™:

Classic Rustic™ is crafted with pillow-edged rails, chair rail and panels. Each component is hand scraped, carved and finished to portray a rugged timeless beauty.
